**Research Guides by Subject**  
Subject guides highlight some of the best resources available. Guide resources require a valid Utah library card, but most of the resources are available to the public.

Most of the guides include relevant Pioneer databases (find your library card).

Can't find credible information on the open web? Try Pioneer's Research Guides by Subject. You will find Utah information as well as links to accurate, authoritative information.

Public Pioneer is a portal to carefully selected electronic resources including many that are normally available only by subscription. These "Premium Databases" are not available over the "free" Internet.

Because of special statewide licensing agreements negotiated by the Pioneer Library Consortium, the databases are now available to everyone in Utah. Citizens access Pioneer resources in public libraries, school districts (**K-12 Pioneer**), and Utah's college & university libraries (**Academic Pioneer**). Home access rights now afford 24/7 service to Utah residents from their own computers. Find out more at <http://pioneer.utah.gov>.
